

In favor of H.B. 6355

Any actions that can be taken to keep guns out the hands of unstable or irresponsible people are positive for our state and our nation.

My family and I have lived in Sandy Hook, CT for 18 years. My children attended Sandy Hook Elementary School. We have seen the devastation that gun violence brings to a community in the most profound ways. These laws would help prevent tragedies like Sandy Hook happen again here and in other CT towns.
